

6516205779.txt

Sirs:

As a subscriber of XM radio, I pay my money to a public company, and receive a product for same. This is completely out of the venue of the NAB, and you should not even entertain this petition.

Yes, I need and use the info I am sent via XM, I am a 'over the road truck driver' subject to be in different cities every day. Weather and traffic is a very important part of my work day! And yes, this info IS NOT READILY Available to me on any other media, on demand, as needed, as I travel!

I could go on, and on....but the point is this is a service I pay for in the same manner as satellite TV, where I can pay for what I want... including local stations if I so choose.

Please reject petition 04-160 and ANY other requests that would tend to prevent full access of legal information to citizens of our country.

Thank you,

LeRoy Brockway
